Renewed Information Price increase 2021

Dear customer,
dear business partner,

Since our last information on the price increase from December 2020 the underlying conditions for customs duty and delivery terms due to the political situation have changed.

Therefore, the average price increase of approximately 4 % will be valid from January 18, 2021.

The new picture price lists with the non-binding price recommendations valid from 18 January 2021 will be sent to you digitally as soon as possible and from March also in printed form by post.

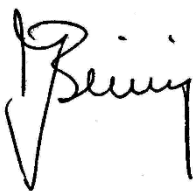

Please also note our discontinued range, which you will find detailed overleaf.

It is important to note that discontinued products will not be re-produced and only existing stock will be sold off. Availability is therefore only guaranteed within the scope of the remaining stock.

Above all, we wish you a lot of strength and health in these eventful times. We are looking forward to continue our partnership with you this year - with new energy, new ideas and new products - and to continue our successful partnership ...

Let us inspire you!

Villeroy & Boch AG
